PHP Developer Mobile Web

Desarrollador PHP web móvil

Company profile:

E2 communications (www.e2-online.com) is an emerging online marketing and full-service agency based in Vienna. Our team is not only active in Austria, but has proven itself successfully for several years in the international market.

E2 communications is looking for a PHP Developer Mobile Web to join its team.

Job description:
- Development and relaunch of PHP Web Properties for mobile devices
- Ability to work independently
- Plan and implement complex tasks in PHP 5.4, HTML5 ,CSS3 and JavaScript defined by user stories
- Consult with product managers on cost-effective and sustainable development
- Contact for all technical matters relating to mobile devices

Required profile:
- MSc or BSc in Computer Science or equivalent education and work experience
- At least 2 years of experience in the field of Mobile Web Engineering (Android, iOS, Windows Mobile)
- Excellent knowledge of PHP 5.4 , CSS3 and JavaScript (jQuery and jQuery Mobile), relational (MySQL) and structural (XML) data modeling
- Experience in cross-platform frameworks PhoneGap, Sencha Touch, as well as with Revision control systems (SVN, git) is a plus
- Understanding of optimization and scalability
- Work experience with Scrum process projects or similar agile projects is an asset
- Fluent in spoken and written English

Personal skills:
- Keen eye for details and ability to work under pressure
- Communication talent and team spirit
- Ability to work independently, efficiently and with initiative
- Organizational and improvisational talent
- Interested in sports, especially in football

What we offer:
- Exciting and innovative challenges in mobile marketing
- Ability to work independently in a young and international team
- Your own working area
- Wide range of exciting and challenging projects

Type of contract: unlimited

Working hours: full-time

Salary: The gross salary starts from 2700 Euro per month depending on experience and qualification.
