

Software Test QA Engineer / Quality Test and Validation Engineer

**Do you enjoy learning and staying updated with the latest news in languages, platforms and development environments? Are you passionate about programming?
This job is for you!**

LXA is a dynamic consulting company based in the heart of Nice Sophia Antipolis, with consultants from 15 different countries, who are working for the major economic actors in the area.

With participative local management, we are committed to keeping a close relationship with our consultants all along our common path.

Our areas of activity concern all the new technologies of IT and project management among others.

As our company is in full expansion in 2016, we decided to reinforce our team with new consultants.

Are you ready to become one?
