

International R&D Projects position at CeDInt-UPM

We are looking for candidates holding a MSc. in Telecommunications, Computer Science or Electrical Engineering with a minimum of 4 years' full-time equivalent experience in Intl. R&D projects management (with emphasis on FP7/H2020 projects).

The selected candidate will be integrated into a multidisciplinary team working on several national and European research projects in the fields of Internet of Things, Visual Analytics, Virtual and Augmented Reality. Thus, background knowledge and experience in one or several of these fields would be a must.

The position is mainly focused on technical R&D management and coordination activities. The selected candidate will be responsible for coordinating the participation of CeDInt research groups in national and European projects, mainly during the Project Proposal preparation cycle. Thus, he/she shall proactively manage the establishment of new consortia, contacts and collaborations, the generation of project ideas, the preparation of proposals to be submitted for national or European calls, the negotiation and contract management phase and the project plan. The candidate is also expected to perform the following tasks:

- Technical management of the research activity of the IoT Lab and VR Lab and technical coordination of specific tasks.
- Building new collaborations for further projects.
- Organization of Project Proposals, contact with European partners, presentation activities and dissemination events.

Collaborative and positive thinking as well as advanced English speaking and writing skills are considered a requirement.

Interested candidates are encouraged to provide evidence on their knowledge and experience in relation to the previously mentioned areas and roles. Applicants are invited to send a short letter stating their motivation together with their curriculum vitae and any additional supporting information in English to: Internationalprojects@cedint.upm.es

Working place: CeDInt-UPM, Campus de Montegancedo, 28223-Pozuelo de Alarcón, Madrid <http://www.cedint.upm.es/en>.

Starting date: Immediate

Working time: 40-hour working week

Pay and conditions: Informed during the interview

Publication date: 10/10/2016

Submissions deadline: 30/10/2016
