**Invitation for your IT and Computer Science students to attend the international week at your partner institution, Efrei Paris**

Dear Sir or Madam,

We are members of iWeek, a student association of Efrei Paris, IT engineering school, based in Paris, France. For the last 15 years, our association has been organizing an **international week for IT and computer science students from our international partner universities**. As Efrei Paris has a network of nearly 90 international partners in more than 30 countries, our iWeek program is a great opportunity for IT students from all around the world to meet each other, to discover Paris, our campus and to meet students and faculty from Efrei Paris.

This year the iWeek program will take place **from Saturday March 10th to Saturday March 17th 2018**. The participation fee for international students is only €80 and all the following services are included during the program:

- ✓ **Airport pickup and transportation in Paris.**
- ✓ **Accommodation** in the home of a French student.
- ✓ **Breakfast, lunch and dinner every day.**
- ✓ **Sightseeing in Paris** (Eiffel tower, Louvres Museum, Notre Dame Cathedral, Versailles Castle, guided visits of Montmartre, the Latin Quarter, The Marais 17th century historical district, etc.),
- ✓ **A cruise on the Seine river**
- ✓ **Participation in numerous social and cultural events** (French dinner, international soiree, wine tasting, picnic at the Eiffel tower, etc.)
- ✓ **Participation in the Efrei Paris international fair:** students must bring brochures and goodies from their home university as well as cultural specialties from their country (snacks, candies, costume, etc.) During the international fair, each participant will represent his/her university and country.

Participating students have to cover for their international transportation and travel insurance.

Students can **apply online until the 15<sup>th</sup> of January 2018**. The number of participants being limited, the iWeek organizing team will select the candidates and confirm participation by the end of January. For further information, you can visit our website [iweek.assos.efrei.fr](http://iweek.assos.efrei.fr) and our Facebook page iWeek Efrei or email us at: **contact@i-week.fr**, or at [daniel.regnard@i-week.fr](mailto:daniel.regnard@i-week.fr)

Thank you for sharing this information and the program poster with the students in computer science or related disciplines. We would also be very grateful if you could transfer this message to anyone you think would be in position to advertise our program to your IT students. We are looking forward to welcoming your students in Paris.

Yours faithfully,

The iWeek Team
