UNIVERSITI SAINS MALAYSIA

Was established as the second university in Malaysia in 1969 and was first known as Universiti Pulau Pinang.

USM offers courses ranging from sciences to arts. These are available at undergraduate and postgraduate levels in 17 academic schools in the main campus on the island of Penang; 6 schools in the engineering campus in Nibong Tebal; 3 in the health campus in Kubang Kerian, Kelantan.

USM also has 17 dedicated research centres for a wide range of specialisations. In 2008, USM became the first university in Malaysia to be selected by the Malaysian government to participate in the Accelerated Programme for Excellence (APEX), a fast-track programme that helps tertiary institutions achieve world-class status.

ARCHI-CULTURAL SUMMER PROGRAMME

A two week short-term programme designed by USM International Mobility & Collaboration Centre Office and USM Buddies that exposes and indulges students towards the mix elements in Malaysia's architecture, such as Islamic designs and Asian traditions. In addition, students will also experience the diverse cultures exclusively in Malaysia.

By the end of this programme, students should gain rich information on architecture through classes as well as understanding of the goal of SDG 11: Sustainable Cities and Communities through the lectures and site visits. Moreover, students will also indirectly be contributing themselves in SDG 17: Partnership for The Goals by involving themselves in this summer programme.

Programme Overview

Programme will include :

8 sessions of architecture lectures by well-trained lecturers of Universiti Sains Malaysia.

4 sessions of cultural activities which include :

- ♥ Malaysian Traditional Cooking class.
- ♥ Holi Colour Celebration and Henna Drawing Session.
- ♥ Batik Canting class (Malaysian Craft).
- ♥ Exclusive Gamelan class (Malaysian traditional music instrument) that will be taught by a Master of Traditional Theatre and Music.

4 days of historical site visits, excursion and team building activities around Penang.

Students will be divided into groups for group presentation in the final week of the Summer Programme.

There will be a special contest for Penang Experience V-log Contents that the student can join.
